PROFILE

My name is August , a 5.9 ft tall man, Experienced and results-driven WordPress Developer with over 8 years of hands-on expertise in building, customizing, and optimizing WordPress websites for performance, usability, and SEO. Skilled in both front-end and back-end development, with a strong command of HTML5, CSS3, MySQL, and modern WordPress frameworks. Proficient in working with custom themes and plugins and managing complex WordPress ecosystems across multiple environments. Knowledgeable in most IT sections, including database management and web hosting. Adept at troubleshooting, performance tuning, and ensuring security best practices.
